

Teaching Exam

**Subject –
Computer
Science**

Operating System

Lecture No - 2

By-Satyendra Chaudhary Sir

Topics to be Covered

Thm.

Topic

Process Management .

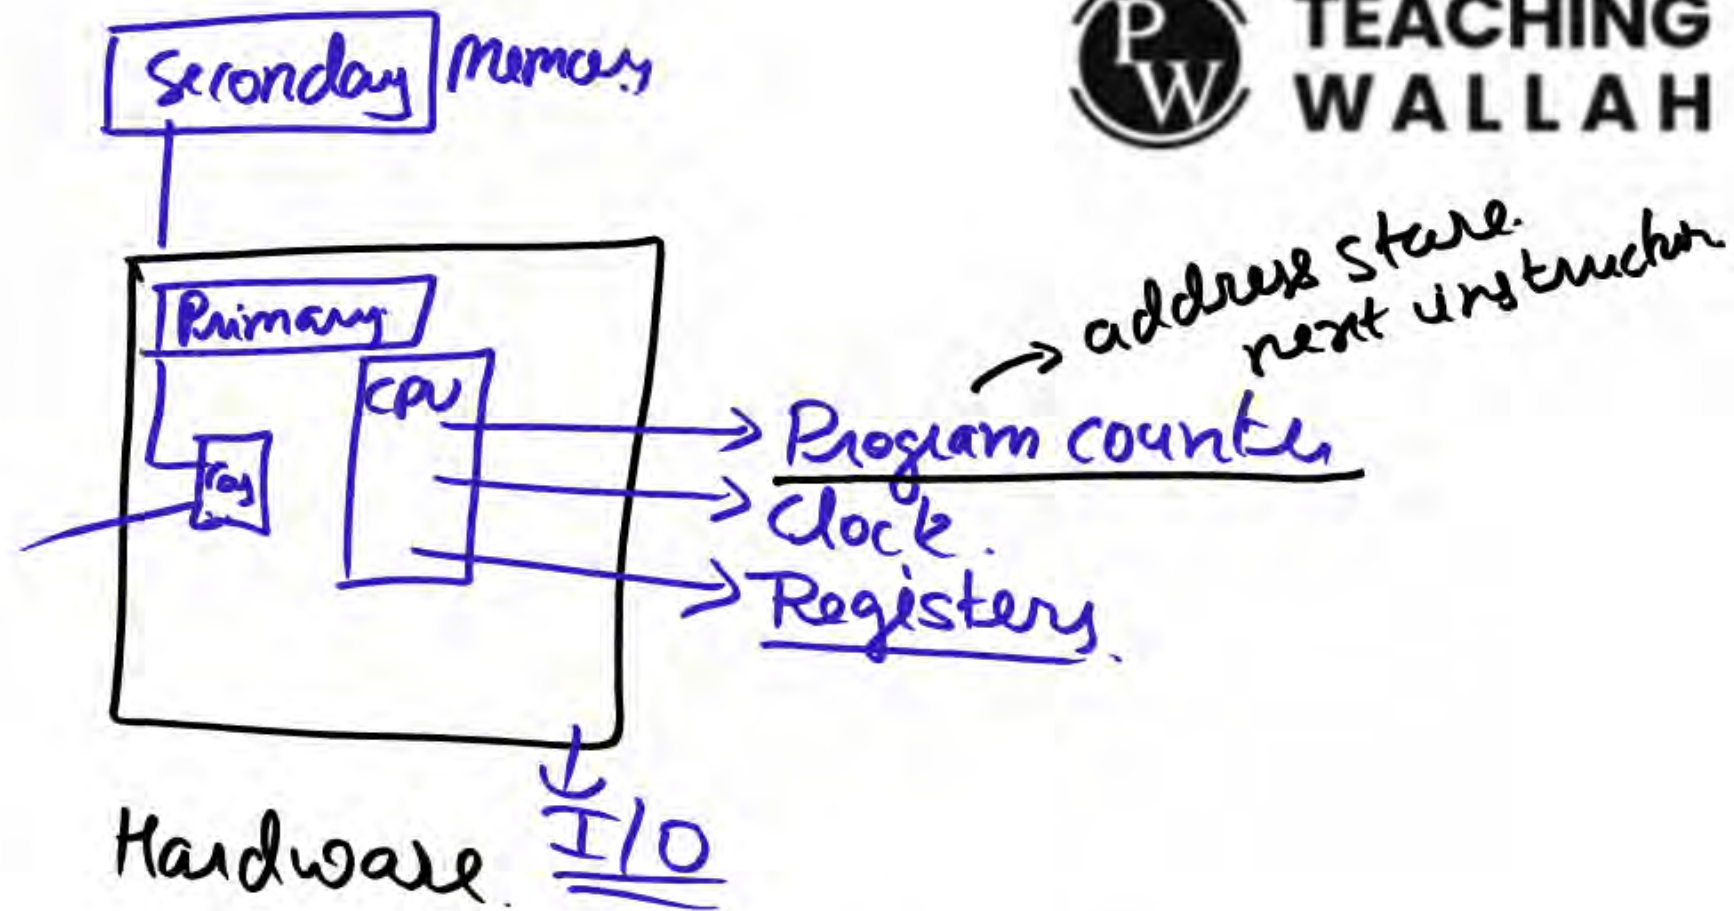

Operating System

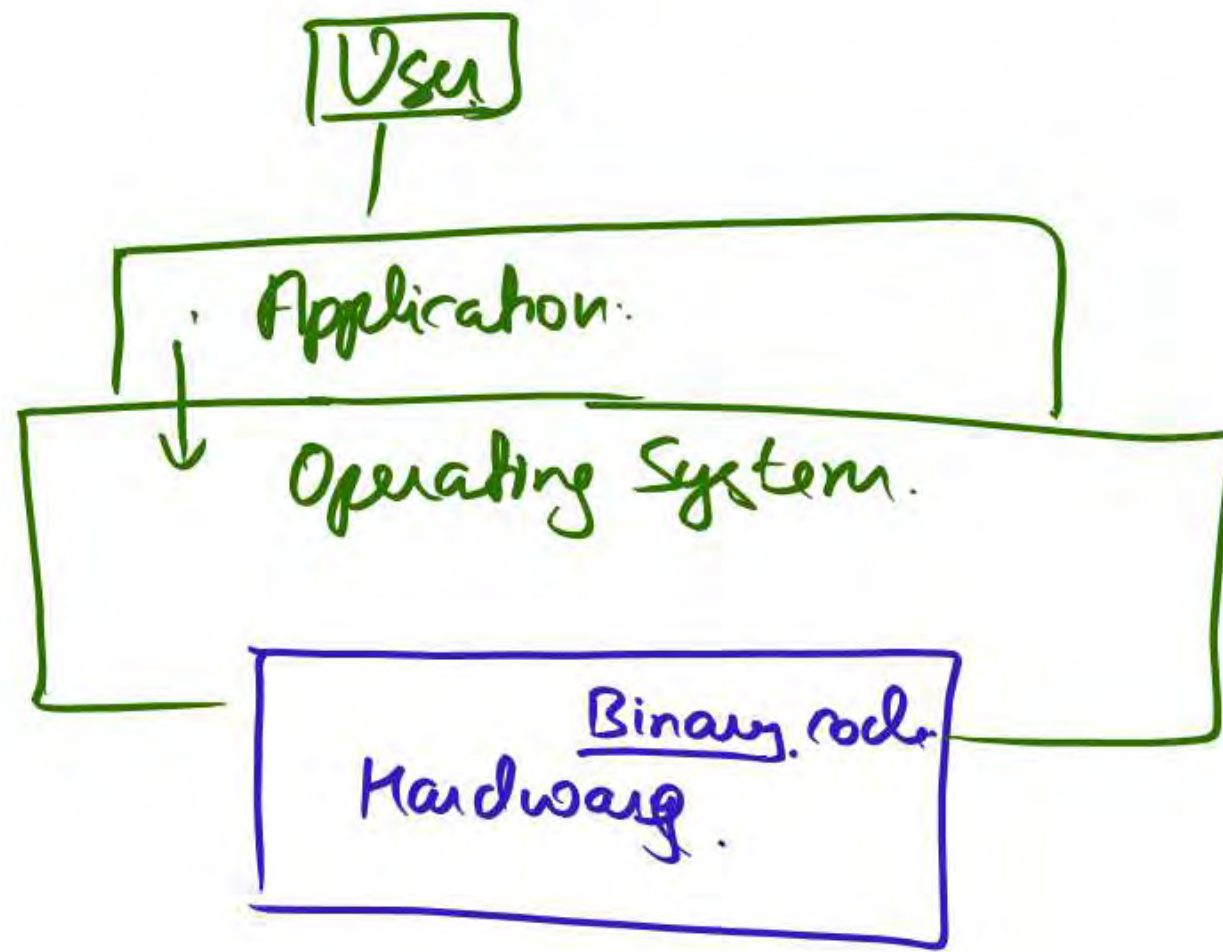

A = 100 -

B = 50 -

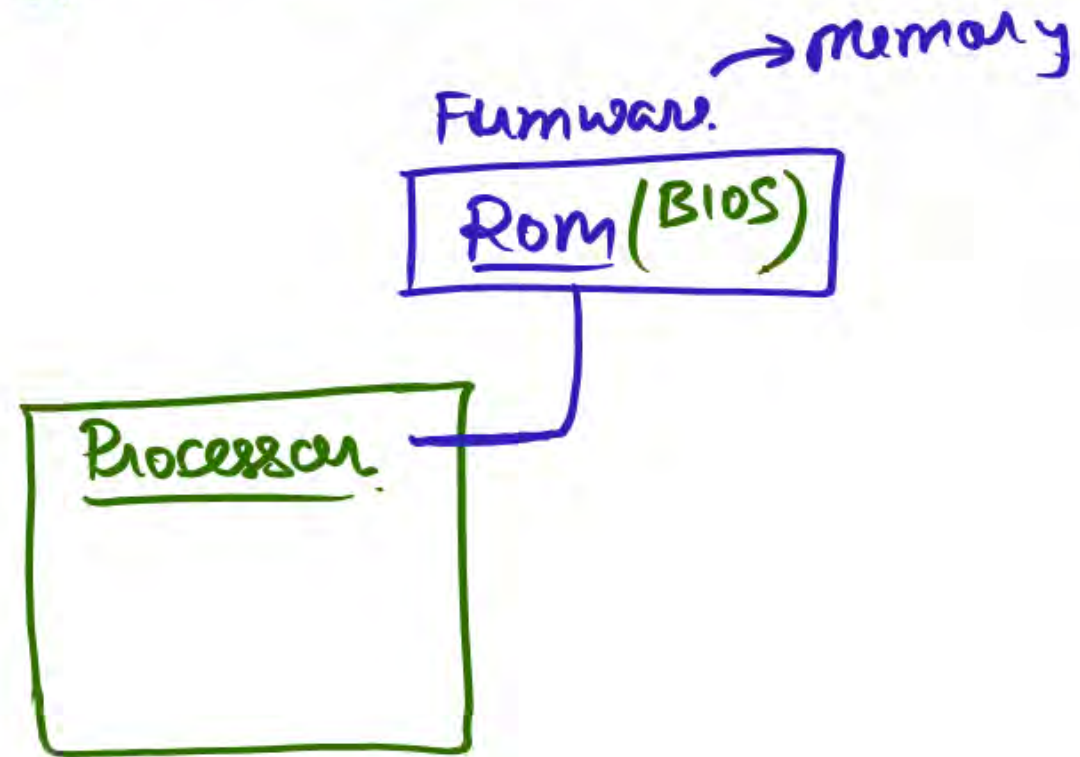

cache.

Von Neuman. Structure. follow

Off $\rightarrow$ Just ON.

BIOS $\rightarrow$ Hardware. check.

$\rightarrow$ Connect Secondary Memory
Load Bootstrap program
Boot loader

Bootloader $\rightarrow$ Pick. OS kernel.

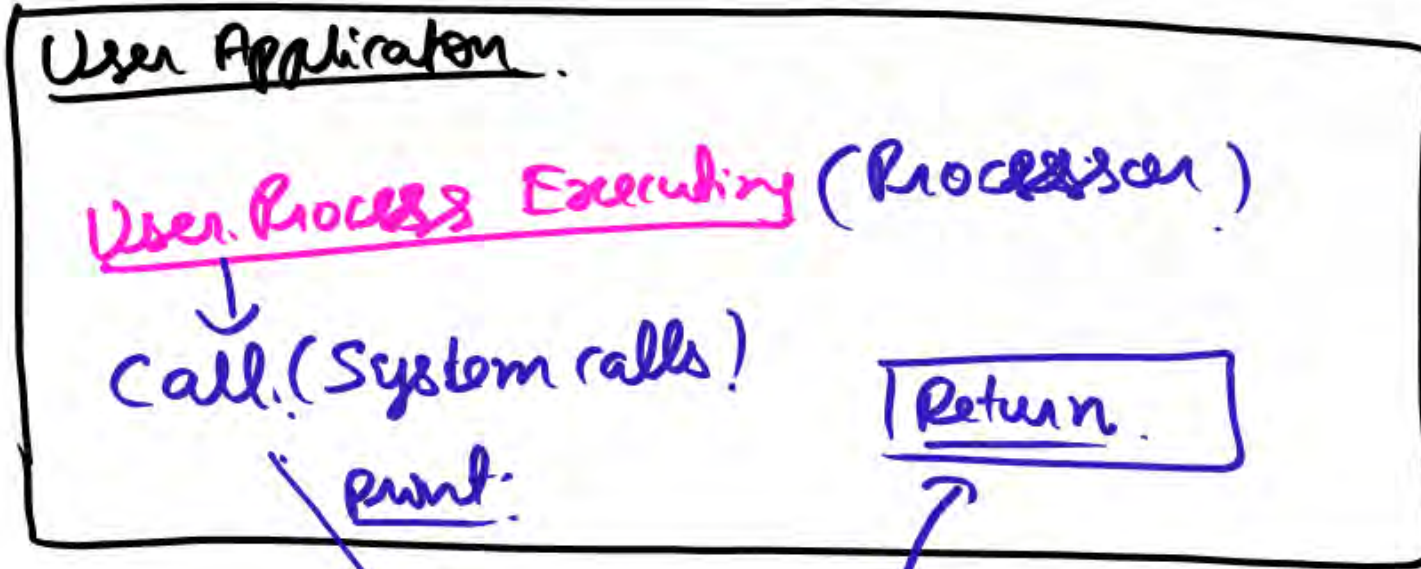

Feed Primary memory.

Structure of Primary Memory after OS loading.

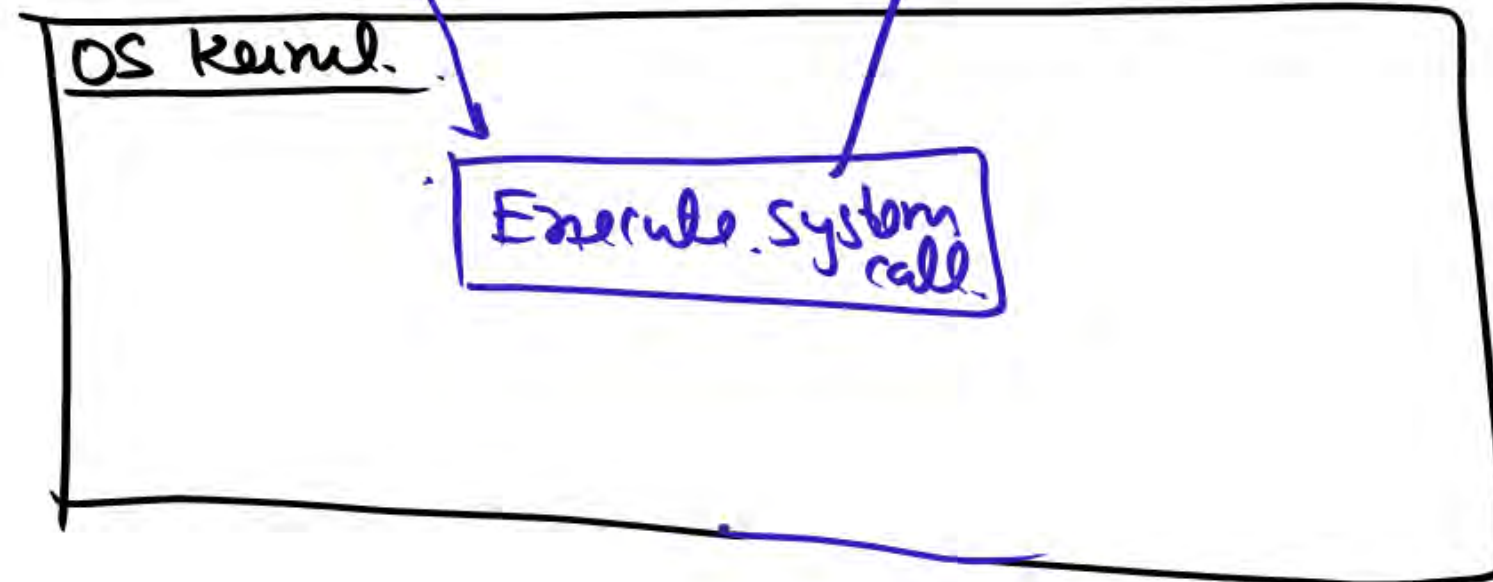

To identify whether kernel is in processor or User Application.

mode Bit → 0 (kernel)
 → 1 (User Application)

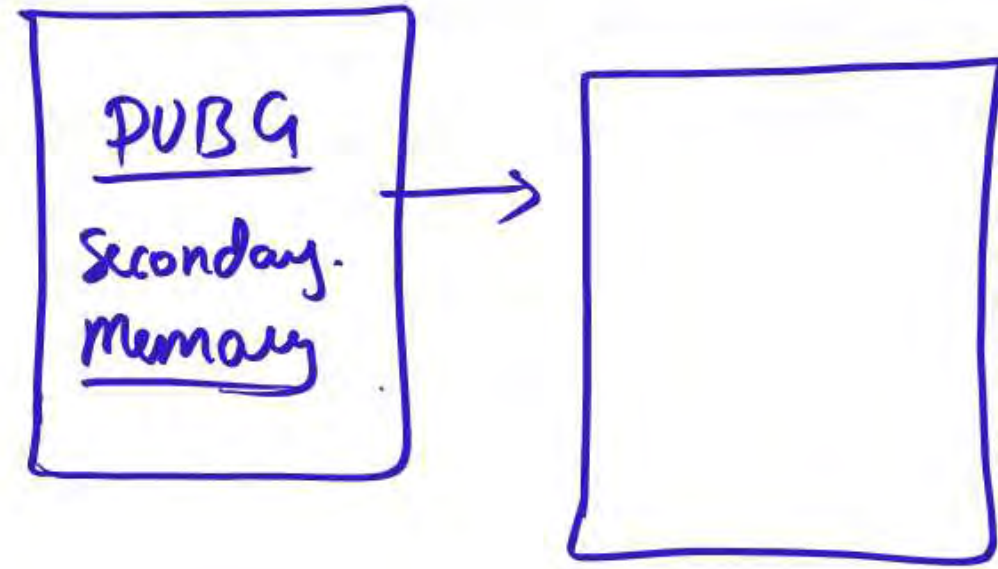

⇒ mode Bit 1

⇒ mode Bit 0

Programs / Process

2 mins Summary

TEACHING
WALLAH

Topic

OS load.

Application → OS

Mode - Bit.

Program, Process

THANK YOU
